

## **CANDIDATE FOR REDDING CITY COUNCIL MEMBER**

MICHAEL DACQUISTO

Age: 64

OCCUPATION: Businessman

Tina and I moved to Redding in 1994 to raise our children. I have participated in our community through Rotary, volunteering and serving on community boards. I have vision, knowledge, experience and ability to work with others as a trustworthy and transparent council member.

Vision: Fighting our crime epidemic and increasing public safety are my first priorities. If the marijuana tax passes, it should be dedicated to hiring more Community Service Officers and increasing jail capacity. We clearly need more officers and more beds to stop the jail's revolving door. This isn't a City or County problem, it's a community problem needing a community solution, not later but now!

Knowledge and Experience: An undergraduate and post graduate degree with 39 years of business experience, including 21 years as a bankruptcy trustee, gives me a unique perspective in dealing with the complicated financial issues Redding must address.

Work with Others: A rebirth of cooperative problem solving arose from the Carr Fire devastation proving that problems can be overcome with input from all citizens. I will work to maintain this community spirit as we move forward from this tragedy – together.

I am asking for your vote.
