

CANDIDATE FOR REDDING CITY COUNCIL MEMBER

KRISTEN SCHREDER

Age: 62

Occupation: Mayor/Business Owner

This is an important time for our City. We are revitalizing our downtown with grants and local investments in commercial projects, housing projects, and state funding of a new court house that combined total more than \$200 Million.

As a Redding City Council member I will ensure streamlined support from our City agencies to help our community members rebuild their homes and businesses.

I will continue to actively fight for solutions that address critical public safety issues in Redding. In the past four years I consistently sought ways and voted for actions to improve our City's public safety.

I have led the way in addressing the \$34 million financial impact of homelessness on our community by bringing together local agencies and community members to develop solutions. I recently launched a work-group to develop plans to address at-risk and homeless youth. I raised over \$8,000 for programs that support at-risk youth.

I have worked collaboratively with Shasta County agencies and other local organizations to make a positive and meaningful difference in Redding. I will continue to work hard in our community.

Vote for me, Kristen Schreder on November 6.
