

I am a farmer, business owner and citizen legislator who fights special interests and political elites to build a better future for Shasta County.

I held agencies accountable for wildfires, I'm working to prevent future wildfire disasters, and I'm helping Carr fire victims recover now.

I led the fight against sanctuary cities that protect illegal immigrants from criminal prosecution and will push to reimburse California for millions spent incarcerating illegal immigrant criminals.

Defeating \$29 billion in new taxes and keeping property taxes down by protecting Prop 13 allowed you to keep more of your hard-earned money.

Leading a statewide campaign to reinstate DNA collection for convicts will help police solve more crimes.

Passing bipartisan legislation to end the gouging of hospital patients with surprise out-of-network bills, improving preventative health care and making pharmaceutical companies more accountable for rising drug prices have made health care more affordable.

Opposing schemes to send water to Southern California will ensure our farms and families have the water they need.

As your Senator, I'll continue fighting for Shasta County families, small businesses and schools.

My record earned me 100% ratings from the California Taxpayers Association and California Police Chiefs Association.

The Shasta County Farm Bureau, California Professional Firefighters, Shasta County supervisors, and six county sheriffs support me.

I made the best decision of my life when I married Megan. Together, we have three wonderful children.
