

In unprecedented times, new challenges and unexpected circumstances demand unconventional thinking. Having served - and retired - honorably as a Division Chief with the California Highway Patrol, I bring a strong set of executive and emergency management experience and strategic thinking/planning skills to my candidacy for the Shasta College Board of Trustees. During my tenure in a public safety environment, I learned to lead, assist and follow, while serving on many boards, including the CAHP Credit Union, Far Northern Regional Center, YMCA and State Council on Developmental Disabilities. I embrace the role of this Board as one of joint governance and shared leadership, making every educational experience rewarding for students, faculty and the community we serve.

Ideas emerge when leaders listen and engage collaboratively. I believe in full inclusion and accountability; I will encourage participation, giving stakeholders access to share questions, concerns, opinions and suggestions. I will attend meetings, visit campuses, and meet with students and faculty - to stay informed and fully represent our college and its stakeholders. I will keep Shasta College a strong, responsive asset to the entire region. In the election for the Shasta College Board of Trustees, Region E, I would appreciate your vote.
