

Name: Mark B. Mezzano

Occupation: Retired CHP Sergeant

Age: 63

I retired as a sergeant from the California Highway Patrol after a successful 29-year career. During my tenure with the patrol, I learned leadership meant putting personal agendas aside and having conversations with everyone. Protecting our neighborhoods and businesses, children and our elderly must be the first priority of any city. Covid-19 is not going anywhere soon. As a full-time council member, I will work with city and county leadership and local business to develop a safe workable solution. We must search for opportunities to bring more businesses and jobs to Redding. This will broaden our tax base and provide more funding for our police and fire departments, without raising taxes. In order to be successful, transparency between government and the people it serves must be paramount. I believe in partnering with neighborhood communities, religious communities, and businesses to develop solutions to our growing crime problems, homelessness, domestic violence and economic recovery. I am committed to protecting our rural way of life. Solving problems through collaborative efforts with common sense and respect is the foundation of my leadership success. Let me be your voice and with your vote, we will come together to move Redding forward. For more information: Mezzano4redding.com
