

CANDIDATE STATEMENT FOR
Shasta County Auditor
Nolda Short

Auditor-Controller Age 52

I have 21 years of dedicated service in the Auditor's office, with eight years as the Assistant Auditor-Controller before becoming Auditor. Under my leadership/direction, the office has implemented many programs to improve accountability and save taxpayer dollars, including a purchase card program, a major upgrade to the finance system, a whistleblower hotline, automation of various functions, auditing transient occupancy taxes, and more.

In addition to payroll, property tax apportionment, processing payments and deposits, and preparing the county's financial statements, I have also been instrumental in ensuring that regular internal audits of departments are performed to ensure compliance with California laws and to prevent fraud.

I am committed to our community. I have lived in Redding most of my life, and my husband and I raised our family here. I attended Enterprise High and Shasta College before getting a bachelor's degree in Business with options in Accounting and Management Information Systems from CSU Chico.

As your Auditor, I will continue to; serve the taxpayers; educate and assist Shasta County departments and districts; promote accuracy and transparency in financial reporting; and eliminate the potential for fraud, waste, or misuse of County assets.
