

CANDIDATE STATEMENT FOR  
United State House of Representatives  
**Doug LaMalfa**

BD: Farmer/Member, United State House of Representatives

---

The challenges we face in Northern California keep growing. Drought, major fires, as well as inflation stealing savings from retirees and making the basics unaffordable for young families.

As your Congressman, I have fought for the North State; delivering billions in aid for disaster recovery, changed water law to protect our most valuable resource from being lost to frivolous use as well as federally authorized and funded the construction of Sites Reservoir. I am the leading voice on changing federal forest policy, so we thin our overgrown forests and reduce the risk of major fires.

I have fought against the out-of-control waste in Washington DC and to return our nation to common sense. I have voted against the bloated budgets and inflation causing policies that have hurt so many. And, I have stood up firmly for securing our border.

Our nation's security is a top priority. I have consistently worked for American energy independence, including domestic oil and natural gas as well as renewables such as biomass power and clean, cheap hydroelectric. I have voted to keep our military strong and ensure our veterans get the care they need.

It's an honor to serve you and to be your voice. Know that I will keep fighting to protect your individual rights and personal liberty. During this pandemic I have fought against the extreme mandates and shutdowns that harmed so many while backing plans that helped keep us all healthy.

I'd be honored to receive your vote.

Thank you.
