

CANDIDATE STATEMENT FOR
Shasta County Supervisor District 1
Erin Resner

I've heard it said that while voting, the wisest and most courageous vote is for the candidate willing to build a bridge. A bridge from the community to those in power, a bridge connecting departments and jurisdictions, and a bridge closing the gap between those who disagree. As a member of the Redding City Council and former mayor, I know what it takes to see real change. District 1 needs a leader dedicated to working families, veterans, businesses, and youth. We need a leader who provides a hands-on approach to bringing the concerns and priorities of the people who live in this district to the full Board of Supervisors for resolution and resources. We need a leader who is brave and committed but values decorum and respect. I am that leader. In my over 15 years of business ownership, combined with my government experience and years given to non-profit work, I have a proven track record of dynamic leadership. I've already built the bridges. And it's time to build more. I have the tools, the relationships, the knowledge, and the heart and I will stop at nothing to fight for a community my children are proud to call home.
