

CANDIDATE STATEMENT FOR
Shasta County Supervisor District 5
Baron Browning

As Mayor of Anderson, it has been one of my greatest privileges to serve a community that has created the person I am today. After finishing my time in the Marine Corps, Shasta County was where I chose to raise my family, start a business, and develop lasting relationships with many of you whom I now consider my closest friends. I ran for Anderson City Council after observing the problems that our city faced firsthand. I made a commitment to work with you and develop solutions to the problems we faced. We did just that. I have worked with other council members as your council representative to make Anderson one of the greatest places to live in California. Now, I present myself to a greater audience, with the same commitments I made when I first ran eight years ago. I am asking you to work with me to address the same issues we have solved before, but now on a larger scale. As a family man, a business owner, and a marine who will be a voice to our veterans, I am ready to serve you.
