

CANDIDATE STATEMENT FOR  
Shasta County District 5  
**Alex Madrigal**

I have lived and been invested in Shasta County my entire life, choosing to raise my children in this community. as actively involved in our local school by serving as President of their School Board. During that time I rallied for improvements such as raising \$20,000 for a new track and field, initiating an art program, and coaching sports to engage students and promote higher learning. If elected, I will attend school board meetings in my district to listen to staff, parents, and students so that I may address their concerns and represent them to the highest level of our county. In my current job, I am seeing firsthand the struggles of some of our population, and consequently the impacts that has on our community as a whole. I will take a grassroots approach to gain information to make informed administrative decisions at the Board of Supervisors level.
