

CANDIDATE STATEMENT FOR  
Shasta County Supervisor District 5  
**Colt Roberts**

Occupation: Truck Driver

Age: 27

I'm running because I would like to serve as your next District 5 Shasta County Supervisor. As a father, husband, and businessman, I am deeply concerned about what is taking place within our county. Government overreach, like the firing of workers who stood on their own principles against government mandates, or our children who are being required to wear a face mask or submit to an experimental vaccine to attend school, are all issues I strongly oppose and will work to resolve here at the county level. State mandates negatively impact our medical freedom and our religious liberty, and they open new doors that are nearly impossible to close. They infringe on our right to travel, our property rights, our right to keep and bear arms, and our rights as parents to choose what we believe is best for our children. I will stand with you to protect your constitutional rights along with the principles that our framers passed down to our generation to preserve. We the people need a fundamental change in our representation and priorities. At the local level, that change will come through serving the citizens of Shasta County and working to ensure your natural God-given rights are secured.
